

Your Church Community

Mazibook is a church application designed to bring your church together.

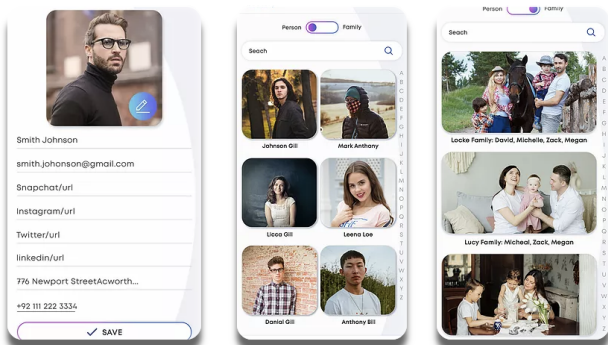

Our mission for Mazibook was to build the world's best church community application; something as fun and intuitive as facebook, but without any of the negativity associated with out-of-control traditional social media. Mazibook was built with user simplicity and pastor controls so that members and churches would use it every day. The name "Mazi" is Greek for "together" and helping build your church community is at the heart of everything we do. Our platform can only be accessed by each church's members; who will enjoy a personalized newsfeed with content curated within their church from every aspect of church life.

What does it cost the church?

Mazibook is **TOTALLY FREE** to the church and **FREE** to members of the church. There is nothing for the church to do except ask members to join.

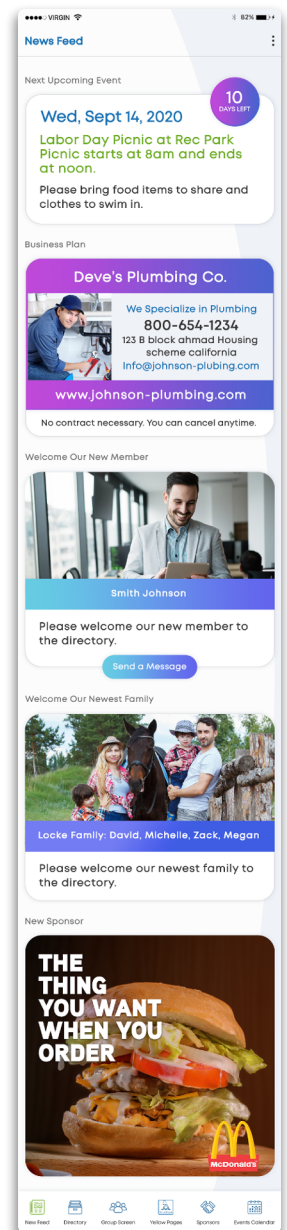

The Photo Directory

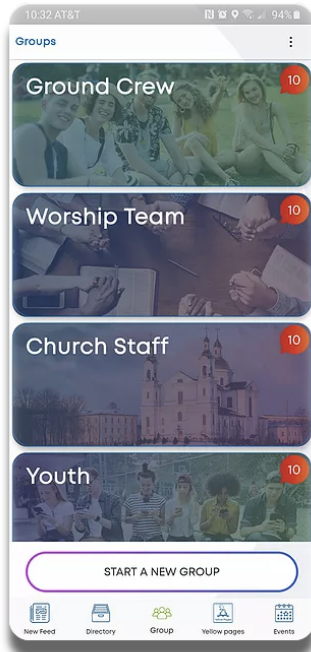

Our network of professional photographers will capture and upload a family image automatically. The directory includes a section for individual members and family groups. Members can complete a personal profile with interesting information such as hometown, favorite sports team, and volunteer skills.

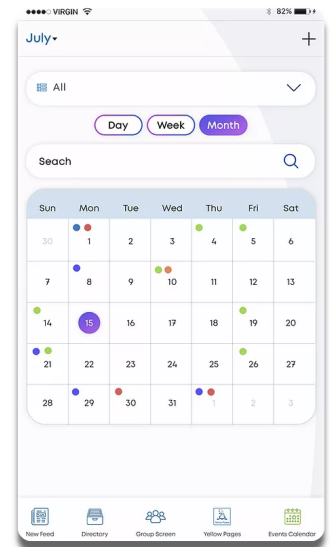

The Newsfeed contains a combination of church news, pastor communications, member updates, small group alerts (to the groups you belong to), personal communication from other church members, and calendar event reminders.

Mazibook
528 Heather Place
Monroe, NC 28112
980-722-3433

Small Groups are often the key to building a church community and our app makes it easy for church members to discover, browse, join, and communicate with small groups inside their personalized secure Mazibook app.

Church Events are established and shared with church members easily inside the Mazibook calendar.

Our Yellow Pages section is built into Mazibook so that church members can shop, search, and support local businesses owned and managed by fellow church members and locally approved sponsors. The yellow pages offer both free and paid listings for church members.

Member Map
We can provide the church leadership team with a secure member map to help facilitate your church outreach. (Only the pastor and approved church leadership will have access to this.)
